Hi Lily-

I got some feedback from Cherie about the Tetra Tech Confirmatory Order. Let me know if you need any further information.

Jim

Cherie

Just got off the phone with Lily.

They had two questions:

1. What does third party oversight mean and who will be conducting it? As part of its corrective actions to address the violation, Tetra Tech implemented a quality assurance process under which the Hunters Point Quality Control Team independently conducts a surveillance of a minimum of 10% of final samples collections. The third party reviewer referenced in the order refers to an independent non-Tetra Tech employee who will verify that the samples are taken appropriately. In addition, Tetra Tech stated that they were done taking samples at Hunters Point and that the independent third party requirement would only apply if they got additional work from the Navy.
2. Can they get a copy of the Press Release? Yes. It is attached.

Thanks

Jim
